

Meals2Moms

A Meal Delivery Service

Helping to shape a healthier future

A six-week, three-day (M-W-F) meals delivery service of prepared food for new moms.

Food Insecurity is a major social determinant of health affecting more than 34,000,000 Americans.

In support of growing hunger, EOP's ACCEL Clinic (Women's Empowerment Program) will further address health and wellness through Meals2Moms.

Impacting maternal health requires providing moms and families with healthy food.

Moms are encouraged to privately self-refer.
